Carolyn,

Four copies of a disk with the draft HRS package, including references for the Upper Cement Creek Site. The Gold King Mine is located within the Upper Cement Creek Site. This site is located within the Upper Animas Mining District Site. This is the only HRS package that was worked on in the mining district. Shall I send the disks by pouch mail to you and that you would prepare a cover letter to transmit the disks to Senator Boxer?

The HRS package is a confidential, pre-decisional document. Note that the draft HRS package is not complete, including several figures that had not been prepared. Also, the draft HRS package has not received a complete QA review. Work was suspended on the HRS package since governor support for proposing the site was not likely. It is EPA's policy not to propose a site to the NPL without governor support.

OCIR and OGC hq will review all documents responsive to Congressional requests for deliberative or other considerations. But if folks can identify what category they fall under (eg. Deliberative, pre-decisional, etc.), that will assist us in our review and marking documents appropriately.

Thank you!

This is either a question for ORC/OGC or OCIR. cc'ing both.

Thanks.

Rebecca – We can work on this on Monday. I presume if something is pre-decisional we still release for a congressional request – is this correct? Johanna

Hi Johanna,

I am fielding many Congressional request right now and Sandy S. thought this particular one would be best handled by you.

Please circulate **ONLY FINAL** responses to me and please mark them **FINAL**. If you are working directly with the JIC, please add this language: **FINAL with approval from JIC**. If a response does not contain that statement, I will work with Janie Acevedo (our liaison with the JIC) for review and finalization by JIC.

I will then disseminate the final JIC approved response to the appropriate parties.

Please let me know if you have any questions.
